PERSONAL INTERESTS	I am an outgoing person who loves to meet new people. I am always ready for a chat or a glass of wine. In my spare time, I like to be outdoors and active by rowing, climbing, or hiking - and I will try to convince my friends and colleagues to join. Working in a bar in my freshman years, I became interested in specialty beers which means you can often find me on the weekends searching for a craft brewery trying out a new type of beer.
